

One / wielowyjściowa electric pump PG-25

Robust electric piston pump with the ability to run up to 15 pumping means. In combination with manifolds progressive intended for lubrication systems having up to 200 points spread. Optional low-level control of the lubricant.

the size of the tank

25 dm³

lubricating medium

oils with a viscosity of 50 cST and greases according

Power

230, 380 to 420, 440 ÷ 480 VAC

maximum pressure

350 bar for oil and 500 bar for grease

Number of outputs

1, 2, ..., 15

efficiency

2.6 cm³ / min or adjusted within the range of 0.15 ÷ -30 to +80 °C

working temperature

1:30, 1:50, 1:80

postponement

IP 55

safety class

Name

PEPG25
