

Static seal FLS

Material:

- Polyurethane outer layer PU95 shore A,
- The inner layer polyurethane PU47 shore A, oo

Operating temperature: 40 C, 90 C

Max. pressure: 410 bar

By using two layers of polyurethane FLS has exceptional resistance to forming and very good sealing function.

Name	D (rys.)	H (rys.)	S	Size	Flansa
FLS-08	25,5	3,30	2,92	1/2"	30,2 i 31,7
